THE PLOT:
In the distant world of Garnik, Bakelor, Lord of the War and King of the Single Knights, leads bravely his armies against the evil Lord of the Darkness.
Sadly, Bakelor has had a domestic accident when he went out his bathroom. As he cannot assist to the battle, you, his favourite pupil, has to command the armies for this time... Do you accept the challenge?

HOW TO PLAY:
To load the game: In Spectrum, type LOAD "" and press Enter. In Amstrad CPC, type RUN" and press Enter- In MSX, type RUN"CAS: and press Enter.

Your mission is to complete all the boards with the same kind of tiles (knights or demons), before time is up. The tiles are changed in cross, inverting knights to demons and viceversa the selected tile, the upper one, the bottom one, and the each one of the both sides. Also, you can use the pikes to change only the selected tile, doing the board more easy to complete. Pikes are limited so... be careful.

In the upper part of the board, there's a slide with a snake-heads shape pointer. Everytime you finish a board, the pointer will move left or right depending on the kind of tiles you use to complete the board. When you reach to one of the end, you will finish the game on the good side or the evil side.

Controls: In Spectrum, Q - up, A - down, O - left, P - right, M - change tiles and Z - use a pike; you can use Sinclair Joystick too (Z to use a pike). In Amstrad CPC, Q - up, A - down, O - left, P - right, SPACE - change tiles and Z - use a pike. In MSX, cursor keys to move, SPACE to chage tiles and Z to use a pike.
