=Protek= ROADRUNNER

Written by Neil Dewhurst

Load and run by typing LOAD "runner" or LOAD "". If you have any problems with tape loading, consult pages 141-148 of the Sinclair ZX Spectrum Handbook. The program loads in three sections; only stop your recorder when the title page comes up on the television screen.

You will first be asked a skill level from 1 (fast) to 3 (slow). Press the required number followed by the ENTER key. The game will then start.

You control your car using the cursor control keys (5, 6, 7 and 8) or A for UP, Z for DOWN, P for RIGHT and O for LEFT. Alternatively, a **PROTEK** joystick can be used.
