"KOBRAHSOFT"

TEL:- 078 230 5244.

"Pleasant View",
Hulme Lane, Hulme,
Nr. Longton, Stoke-on-Trent,
Staffs. ST3 5BH.
ENGLAND.

Dear Customer,

thank you for your enquiry regarding our range of utilities for the Spectrum and Sam Coupe computers. We hope this Catalogue will give you all the information you need. However, if you need any more information about any of our products, please phone the above number or write to the above address, enclosing an S.A.E if you write. We thank you for your interest in our products, and we remain,

Yours Sincerely,

"KOBRAHSOFT SOFTWARE".

"MONEY BACK GUARANTEE"

To give you further confidence when buying our products, they are all now covered by our FULL money back guarantee. If, on receiving your order, you are in any way dissatisfied, please return the order AS SOON AS POSSIBLE, stating the reasons for your dissatisfaction, and we WILL refund your money in FULL - ON THE FOLLOWING CONDITIONS:-
PLEASE NOTE:- This guarantee ONLY applies provided you return the COMPLETE product IN GOOD CONDITION within 14 DAYS OF THE DATE WE SEND IT - please note the date on the postmark. This allows for a 4 day turnaround period at both ends, which means you can have the product in your possession for around ten days, probably more. We think you will agree that this will give you plenty of time to return it if you are dissatisfied. Also, it does NOT apply to UPDATES; see P.2. WE REGRET NO MONEY WILL BE REFUNDED IF THE ABOVE CONDITIONS ARE NOT ADHERED TO. NOTE:- It is the CUSTOMER'S RESPONSIBILITY to return products for a refund in the above specified time. EVERY refund WILL be honoured if the above conditions are adhered to. We accept no liability for refunds lost or delayed in the Post.

Faulty Tapes, M/D Cartridges and Discs.

We are sure you will appreciate that we cannot test EVERY tape, microdrive cartridge and disc that we send out. Thus, it is inevitable that very rarely you may receive a faulty product. We guarantee our products for THREE MONTHS from the date of purchase - should a fault occur within this period, simply return the product, and we will send a replacement free of charge. However, if a failure occurs after this time please obtain a replacement under our update service below.

UPDATES.

Since it is our policy to continually improve our products, we operate an update service whereby you can return ONLY the old tape, microdrive cartridge or disc, as proof of purchase, plus a cheque or P.O. for HALF THE NEW PRICE, and we will then send you the latest version. We regret that our Money Back Guarantee does NOT apply to these updates - see earlier.

TO ORDER: -

Please send a Cheque/Postal Order payable to KOBRAHSOFT to the address given below. NOTE:- You can considerably speed your order by including your cheque guarantee card number on the back of your cheque. Send your order to:-

"KOBRAHSOFT"

"Pleasant View",
Hulme Lane, Hulme,
Nr. Longton, Stoke-on-Trent,
Staffs. ST3 5BH.
ENGLAND.

NOTE:- U.K. orders are POST FREE. Overseas customers, please send payment in Sterling. Europe:- Add £1 P+P PER ITEM. Others:- Add £2 P+P PER ITEM.

CREDIT CARD ORDERS

We are now pleased to accept orders on ACCESS and VISA. To place an order with your ACCESS or VISA card, please ring:-

"SD5 TAPE TO M/D UTILITY"

Now you CAN transfer the majority of your cassette based software to microdrive, with this NEW advanced, but user friendly utility. The main features are:-

- * Many hints and tips and information on transfer methods
- * FULL Technical Section, so you will understand more clearly the best ways to approach each transfer. PLUS "Tricks of the Trade" section.
- * Contains a varied selection of protected programs being transferred to microdrive.
- * SD5 now handles even the latest programs which are protected by the Speedlock system - formerly these were called "Pulsing Programs".
- * It also has NEW Alkatraz decoders which enable the transfer of those "Countdown" type programs.
- * SD5 will now also transfer the "many small block" loaders as in Firebird programs e.g. "FLYING SHARK".
- * Now INCLUDES a superb DISASSEMBLER, worth £5.95!
- * FREE Header Reader AND Headerless Block Length Reader.
- * FULL Instruction Manual with many detailed examples.

IF YOU ARE REALLY SERIOUS ABOUT TAPE TO MICRODRIVE TRANSFER, THIS IS THE UTILITY YOU MUST HAVE!

Available for Spectrum 48K;48K+;128K and +2 (48K Mode).

Excellent Value on-Tape at:- £7.95 (inc. P+P)

Also on M/D Cartridge at:- £9.95 (inc. Cart. and P+P)

"A superb utility - the Manual is a wealth of useful information" - K.Roberts, S.Yorks.

"SD5 PLUS UTILITY"

This NEW utility has an identical specification to the normal SD5, but has in addition TWO very useful additional features i.e.:-

- * It contains a special Catalogue program which gives a TRUE and fully detailed CAT of all files on a cartridge. Details such as whether a file is Basic, Machine Code or an Array; the Code Length and Start Address of Machine Code files; and the Auto-Run Line Number of Basic files.
- * It also contains a special Format program which will format cartridges to around 100K, possibly up to 125K depending on the quality of the cartridge. This enables the storage of far more information than usual on each cartridge.

The addition of these 2 useful extra programs makes SD5 PLUS the BEST for tape to microdrive transfer.

Available for Spectrum 48K;48K+;128K and +2 (48K Mode).

Superb Value at:- £8.95 on Tape. (inc. P+P).

Also on M/D Cartridge at:- £10.95 (inc. Cart. and P+P)

"MT1 MICRODRIVE TOOLKIT"

Our NEW full toolkit for your microdrive system contains many useful features which make it an invaluable addition to your microdrive system (1 AND 2 drive systems) i.e.:-

- * It will FORMAT your cartridges to around 100K, allowing more data to be placed on each cartridge.
- * Allows INDIVIDUAL SECTOR RESTORATION to repair your cartridges and recover lost data.
- * Allows INDIVIDUAL ERASURE of sectors.
- * Gives a FULL BACKUP of cartridge to another cartridge.
- * Contains a FULL PROGRAM RENAME facility.
- * Will MERGE auto-run programs allowing them to be listed.
- * Gives a FULL CARTRIDGE STATUS DISPLAY which reveals any suspect sectors.
- * Has a very fast machine code FULL CATALOGUE which lists and describes all the files on a cartridge.
- * Gives a full list of any faulty sectors, plus an ASCII display of each sector.
- * Will list all the sectors of a given filename.
- * Allows the change of the default drive number.
- * Contains a full SECTOR EDITOR which allows the modification and repair of individual sectors.

Available for Spectrum 48K;48K+;128K and +2 (48K Mode).

Superb Value at:- £12.95 on Tape. (inc. P+P).

Also on M/D Cartridge at:- £14.95 (inc. Cart. and P+P)

"SUPERCOPIER SC7"

Make your essential security backup copies of your valuable software with this NEW versatile copier. We think this is probably the best and easiest to use copier available. It will now copy the VAST MAJORITY of Spectrum programs. Its main features are:-

- * It will now copy COMPLETE Multi-Load games such as "OUTRUN", "WEC LE MANS", "AFTERBURNER" and "ROBOCOP" - the Multi-Load blocks CAN NOW ALSO BE COPIED.
- * Will now copy COMPLETE even the VERY LATEST Countdown programs such as "THUNDERBLADE", and "LED STORM".
- * It will copy FAST LOADERS VERY EASILY, with a minimum of fuss, using its new baud rate counter.
- * Program parts are loaded CONTINUOUSLY - no cassette changing! Repeat backup copies are readily made!
- * Will copy "Multi-Block" Firebird type programs.
- * It will copy VERY LONG programs (up to 80000 bytes!) by compressing the first 48K then copying the rest!
- * ALSO, now contains FREE Header Reader AND Headerless Block Length Reader!
- * Can now copy FULL single load 128K programs and 48K programs using the NEW CU7 copier. Many other features - very user friendly.

Available for Spectrum 48K;48K+;128K;+2; +3 (48K Mode).

Unbeatable Value at only:- £9.95 (inc. P+P).

"Like all your products, well explained and superb value for money - excellent work!" - R.Dungey, London.

"SOS TAPE TO OPUS UTILITY"

With our NEW SOS utility you can now transfer most of your tape based software to your Opus Disc Drive. Its advanced specification now features:-

- * Contains a large selection of programs to help you - some in Basic, some in Machine Code.
- * Has many hints and tips and information on transfer techniques.
- * Contains a FULL Technical Section, so you will understand more clearly the best ways to approach each transfer. PLUS "Tricks of the Trade" section, showing you the tricks the professionals use!
- * Gives you well explained examples of some of the latest protected programs being transferred to Opus Drive.
- * Also, SOS now handles even the latest "Pulsing Leader" programs and Countdown type programs.
- * This new version now enables the easy transfer of the multiple block loading Firebird type programs.
- * Now INCLUDES a superb disassembler - previously sold separately for £5.95!
- * Comes complete with FREE Header Reader AND Headerless Block Length Reader.
- * Has a FULLY DETAILED Instruction Manual, with clear concise instructions.

Available for Spectrum 48K;48K+;128K and +2 (48K Mode)

Excellent Value at:- £7.95 on Tape. (inc. P+P).

Also on Opus Disc at:- £9.95 (inc. P+P and disc.)

"CODE INVESTIGATOR"

This truly amazing utility is an ideal tool for the dedicated Hacker, who wishes to investigate the code in a program, without having to break into that program! Using Code Investigator, any section of code on a tape can be removed and stored at any address which YOU select, for your perusal. The utility deals with normal code, and code which has been saved at any of SEVEN different speeds - thus it can be tailored to suit most programs. It is an ideal tool for seeking out hidden messages, for converting to microdrive, and many other varied uses. A superb investigative tool at a bargain price.

Available for Spectrum 48K;48K+;128K +2; +3 (48K Mode).

Superb Value at:- £7.95 (inc. P+P).

"SHARPSHOOTER"

Attention all you arcade fans! Here is a game that will really test your skills to the limit! (As advertised in the computer press). "SHARPSHOOTER" is a multi-screen, all action 100% machine code game with superb graphics and sound. Contains many advanced features - it is based on a fairground shooting gallery - but with many more innovations! It features the obligatory Hall of Fame; Save Hall of Fame to tape; Load Hall of Fame from tape; HOLD, ABORT and QUIT features; output Hall of Fame to a ZX Printer; 5 skill levels from beginner to very, very hard; compatible with Keyboard control and Kempston and ZX Interface 2 joysticks. But beware - it is incredibly addictive - a factor sadly lacking in most Spectrum games.

Available for Spectrum 48K;48K+;128K +2; +3 (48K Mode).

Excellent Value for only:- £8.95 (Add £1.25 P+P).

"SL4 SUPER SPEEDLOADER"

Tired of waiting for your cassette programs to load? Then try our NEW SL4 ADVANCED SUPER SPEEDLOADER. It features:-

- * Programs can be made to load at a selection of SIX different speeds chosen by YOU to suit your recorder - gives speeds up to more than THREE times normal.
- * Now YOU can select a variety of different loading borders i.e. (1) Any one of ELEVEN colour combinations of loading stripes; (2) NO loading border at all; (3) MULTI-COLOURED border - giving your programs that professional touch!
- * Comes complete with a large selection of programs to help you.
- * Handles even the latest PROTECTED programs (many similar utilities don't!).
- * FULL Instruction Manual with clear concise instructions - with many examples of programs being converted.
- * FREE Header Reader AND Headerless Block Length Reader, AND a DISASSEMBLER (worth £5.95!).
- * NOW INCLUDES INSTRUCTIONS ON HOW TO CONVERT 128K GAMES e.g. "KNIGHTYME" - after conversion this loads in 4min. 45sec. (takes 12min. normally!).

Available for Spectrum 48K;48K+;128K and +2 (48K Mode)

Excellent Value at:- £7.95 (inc. P+P).

"Your excellent SL4 gives high speed loading with high reliability" - C.Eaton, Cheshire.

"I found using SL4 most programs loaded in well under 2 min. with high reliability" - S.Doyle, Eire.

"SM1 MULTIFACE SUITE"

This NEW versatile package contains FIVE programs, 3 of which install in your Multiface Ram to give 3 extra and very useful facilities not normally available. NOTE:- ALL programs saved by SM1 reload independently of the Multiface. SM1 also gives you TWO superb types of loader program to give your programs that professional look.

BLOCK LOAD.

Provides a RELIABLY LOADING backup to tape of any 48K program, which will reload with the minimum of trouble and with only a few bytes in the screen centre changed. NOTE:- The saved program can be reloaded at NORMAL, or any one of TEN turbo speeds RELIABLY. For M48K and M128K; NOT M +3.

128K LOAD.

As for BLOCK LOAD, but this program will give a reliably loading backup of FULL 128K programs. The saved program reloads at a reliable high speed of 2100 baud, again with very little of the screen altered. Suitable for M128K.

SPRITER.

Allows you to search the memory for sprites and screens or character sets - allows you to save and use these in your own programs for that professional appearance. For M48K and M128K in 48K mode.

WINDOW LOAD.

Will define up to 50 separate screen windows which can be customised then saved and used in your own programs. Windows saved will reload reliably at normal or any one of TEN turbo speeds or any of 27 border loading colours.

FANCY LOAD.

Enables you to use any one of FIVE specialised loading screens for your own programs e.g. ZIG ZAG; HI-RES; VORTEX, SPLIT and TWISTED. Gives your programs the pro look. 6 loading speeds and 27 colour types are available.

Superb Value at:- £12.95 on Tape.

"Z80 MACHINE CODE COURSE"

This is our COMPLETE course in teach yourself Machine Code programming, and comes in TWO books of six chapters each which will have you writing M/C programs in DAYS.
FURTHER DETAILS.

We believe that quite a number of people would like to learn Machine Code, but have been put off by tales that it is too difficult, or by seeing books which are unnecessarily complicated. Our course starts at the COMPLETE BEGINNER level, and it leads slowly but progressively up to an advanced standard. And it WORKS! This is borne out by the number of people who have taken the course. The key is that the chapters also contain a few simple exercises, to ensure that the reader has really understood what has just been read. Also, the course comes complete with a FREE DISASSEMBLER and an EDITOR/ASSEMBLER which are an invaluable addition to the course.

Each chapter progresses to an advanced standard which deals at the end with the construction of a simple program in Machine Code. The course is suitable for ANYONE - no previous knowledge is required, and applies to ALL Spectrum models; since they all use the same microchip - the Z80. Buy our Z80 Course and learn the wonders of machine code programming.

Course Fee:- £20 (inc. P+P).

"SAM Z80 MACHINE CODE COURSE"

A NEW Course in machine programming for all models of the Sam Coupe computer. Based on the same teaching method as our popular Spectrum course (above), this course gives you the knowledge you will need to program your Sam in machine code. As an added advantage, it comes with our NEW KAI Assembler and NEW KD1 Disassembler, and thus it provides you with all the tools you need to machine code program your Sam. The course comes in TWO books; the Editor Assembler and Disassembler come on tape. A superb course for anyone wishing to unlock the secrets of machine code.

Course Fee:- £20 (inc. P+P).

"SP7 TAPE TO +3 DISC UTILITY"

Now you CAN transfer the majority of your cassette based software to +3 disc with this NEW utility. It features:-

- * SP7 now comes with TWO Manuals - one for beginners and the other for more advanced programmers. With the new Beginners Manual, NO knowledge of machine code programming is needed.
- * To further help the beginner, SP7 now comes with an Encrypter Demo Tape, which gives a visual display of the Speedlock, Alkatraz and Firebird systems used.
- * NOW comes supplied FREE with our NEW SP7 COMPANION book Volume 1 which gives a list of many games which can now be transferred to +3 disc using the SP7 utility. NOTE:- SP7 COMPANION VOLUME 2 is now also available (see P.11)
- * Will transfer the old 48K programs which give some problems even to hardware devices.
- * SP7 now handles the latest Speedlock, Alkatraz and Firebird protected programs.
- * Probably the most useful addition is the NEW "DISKCAT" program which gives a FULL Catalogue of ALL the files on your discs plus MANY other commands.
- * The latest addition to SP7 is our CU7 CONVERSION UTILITY, which now allows the transfer of FULL single load 128K programs, i.e. programs such as "JAWS 128K", "OPERATION WOLF 128K" etc can now be transferred.
- * FULL Instruction Manual with many detailed examples.

Available for the Spectrum +3 in 48K and 128K Mode.

Superb Value at:- £14.95 on Disc (inc. P+P)

"A superb utility - the Manual is a wealth of useful information" - K.Roberts, S.Yorks.

"SP7 Companion Book Volume 2"

This is a new product especially evolved in response to the many requests from our customers for a comprehensive set of instructions which are VERY EASY to use and which will show how a large collection of games can be transferred to +3 disc.

We have ensured that at the start of the book, clear and concise instructions are given showing how to transfer a game, which are even suitable for the newcomer to computer programming.

There follows a comprehensive list of OVER 100 games and full instructions on how they can be transferred to disc. The games include those given free with the three main Spectrum magazines i.e. "Your Sinclair", "Sinclair User" and "Crash". They also include many of the favourite budget titles and full price games, PLUS a selection of what we have called "GOLDEN OLDIES" which date from the early eighties. Such evergreen favourites as "Manic Miner" "Jet Set Willy", "Jetpac", "Scrabble" and "Mr Wimp" are included to name a few.

PLEASE NOTE:- We can ONLY supply this product WITH our SP7 utility - see P.10. - we cannot supply it separately. The reason is quite simple - the programs detailed use transfer methods given in the SP7 utility, which makes its ownership essential. We think you will agree that since with the SP7 Companion Volume 1 AND SP7 Companion Volume 2 you can transfer over 150 games, they are excellent value for money. Plus, of course, you can include all the games which SP7 itself can transfer.

SP7 Companion Volume 2 (supplied with SP7):- £4.95

"SW1 TAPE TO WAFADRIVE UTILITY"

Now you CAN transfer the MAJORITY of your cassette based software to your Wafadrive with this NEW advanced but user friendly utility. The main features are:-

- * Uses the semi-automatic method for best results.
- * Contains a large collection of programs to help you, in Basic AND Machine Code.
- * Many hints and tips and information on transfer methods
- * FULL Technical Section, so you will understand more clearly the best ways to approach each transfer. PLUS "Tricks of the Trade" section.
- * Contains a LARGE number of examples of programs being transferred to Wafadrive; including the LATEST protected programs.
- * SW1 now handles even the latest "Pulsing Leader" programs which can now readily be transferred to your Wafadrive.
- * Now INCLUDES a superb DISASSEMBLER, worth £5.95!
- * FREE Header Reader AND Headerless Block Length Reader.
- * FULL Instruction Manual with many detailed examples.

Excellent Value at:- £7.95 on Tape. (inc. P+P)

"D.I.C.E. PLUS 3 DISC UTILITY"

Latest 3.0 Version with many extra features!

D.I.C.E (Disc Information Copier Editor) or DICE for short, is a powerful, yet easy to operate utility tool for use with the Spectrum +3 disc system. It has the following very comprehensive range of functions:-

- * READ Disc Sectors - Data is displayed in Hex and ASCII.
- * MODIFY Disc Sectors - Input in decimal, alphanumeric or hexadecimal formats.
- * NOW SUPPORTS +3/PCW (Type 0), CP/M Plus, CPC System and Data formats.
- * EXAMINE and edit non standard sectors.
- * ACCESS any part of Disc - Selection by Block, Track and Sector and cursor keys.
- * BACK-UP Discs - Copies complete disc or selected files; and unfragments files.
- * FULL DIRECTORY Listing - Including ERASED files and special CP/M entries.
- * AUTOMATICALLY LOCATES START of a selected file's data.
- * NOW has PRINTER output to give a hard copy of files.
- * AUTOMATICALLY ASSESSES whether an erased file can be successfully recovered.
- * SINGLE KEY PRESS to recover files (including files over 16K in length).
- * ERASE single or multiple files by cursor selection.
- * RENAME FILES (checks for duplicate filenames).
- * SET/CANCEL file attributes.
- * READ FILE HEADERS and display file type and details.
- * REVEALS CP/M passwords and protection modes.
- * READS CP/M Time and Date stamps.
- * GRAPHIC AND NUMERIC DISPLAY of file location and disc space used.
- * GRAPHIC AND NUMERIC DISPLAY of overall disc space used.
- * FAST DISC SEARCH for a string of up to 8 bytes in length.
- * FORMAT disks - PLUS3DOS/CPM, System and Data formats.
- * DISPLAYS DOS ERROR warnings with permanent reminder.
- * AUTOMATIC CHECKSUM UPDATE when modifying header records.
- * DECIMAL to Hexadecimal calculator (0 to 65535).
- * CONFIRMATION CHECKS before writing to disc.

- * Now also features new high capacity formats, allowing much more data on each disc e.g. 178K, 193K and 203K format options are now available, together with an option for extended directories - very useful when a disc contains a large number of small files.

DICE also combines simple automatic operations for the novice with full editor facilities for the more experienced user familiar with CP/M file structures. It also has easy single key selections from menus.

The program can be used within CP/M DOS file structure, or by direct access to any part of the disc. In either case the Editor mode can be used to directly alter data on the disc.

A review in "Computer Shopper" (Oct '88) said of DICE:-

"At the current price DICE introduces enough improvements and new features to appeal to any Plus 3 owner - even people who already own the "Zip Zap" utility."

"DICE is a much more sophisticated product than "Disc Doctor", and is far easier to use than "Zip Zap"."

"The DICE Manual is well-thought-out, clear and comprehensive."

"DICE is well-coded, and is well-organised and easy to use - well worth the money."

A review in "CRASH" (Oct '88) said of DICE:-

"Even an expert may find it worth reading the Manual".

"At the price, DICE is an excellent package."

The above were reviews of the 1.1 Version. Version 3.0 is even better!

DICE comes complete on +3 disc with FULL Manual.

Excellent Value at:- £14.95 (inc.P+P).

" I . M . B . O . S 2 . 0 "

IMBOS or Improved Microdrive Basic Operating System 2.0 is a powerful new utility which adds more than 60 (yes SIXTY) new commands to your microdrive Basic. The extra commands are listed below:-

- * TEN new microdrive commands.
- * Attribute commands.
- * Cassette file commands.
- * Graphics commands.
- * Conversions:- Hexadecimal - Decimal - Binary etc.
- * User definable fonts from Basic.
- * High use of "new" printing formats.
- * New improved sound with 3 new sound FX commands.
- * Extra "time" instructions.
- * New screen RAM SAVE/LOAD commands.
- * Monitor commands and a monitor screen.
- * Block move instructions.
- * BASIC information commands.
- * Pixel commands - INVERT, MIRROR, FILL.
- * Scrolling, clearing, setting.
- * User selectable error or hook codes.
- * DOUBLE HEIGHT printing commands.
- * "Organ" music in two octaves - makes REAL music sounds.
- * Comes complete with 10 min demo and Organ program.

IMBOS 2.0 received the following reviews:-

- "An excellent package" - Your Sinclair Sept '88.
 - "Good value for money, Rating 82%" - Sinclair User Oct '88.
 - "Vastly improved Microdrive syntax" - Crash Dec '88.
- IMBOS 2.0 comes on tape which easily transfers to microdrive

Available for Spectrum 48K;48K+;128K and +2 (48K Mode)

Superb Value at:- £12.95 (inc. P+P).

IMBOS VERSION 1.1 UPGRADE.

PLEASE NOTE:- For earlier customers who have purchased IMBOS Version 1.1, we can supply IMBOS 2.0 as an UPGRADE - please return your IMBOS 1.1 (Tape AND Manual) as proof of original purchase.

IMBOS 2.0 as an UPSRADE of Version 1.1:- £5.95 (inc.P+P).

"DB2 PLUS 3 DISC COPIER"

Now you CAN make your essential security backup copies of your Plus 3 discs with this powerful new copier. It has all the features you are ever likely to need i.e.:-

- * It is VERY easy to use, being Menu driven.
- * With the new coding in DB2, virtually ANY of the commercial PROTECTED discs may be copied easily.
- * It will also copy "ordinary" non-protected discs.
- * Contains a CLONE option which will copy DISC to DISC or, if required, DISC to TAPE - so you can also backup your discs onto tape.
- * You can select any one or ALL files on a disc to be copied either to another DISC or to TAPE.
- * Any one or more files can be selectively deleted.
- * Any one or more files can be renamed.
- * A disc can be formatted according to FOUR format types, sector size and number of sectors per track.
- * Boot sectors can be tested for and copied separately.
- * Previously saved files or standard format files can be copied from TAPE to DISC.
- * ANY disc type i.e. multi-loads etc can be copied.

An unrivalled utility - this must be the best.

Supplied on +3 Disc for:- £14.95 (inc. P+P).

"PLUS 3 DIARY & DATABASE"

NEW 1.1 Version now with Printer Output!

Save all your valuable data including lists of names and addresses, record lists etc with this NEW Diary / Database / Filing system for the +3. You can also save notes and reminders in fact ANYTHING which requires a fast efficient filing system. Its features include:-

- * A calendar covering 1 Jan 1910 to 31 May 2089.
- * Notes may be attached to ANY date. Up to 2559 lines of notes can be handled, enough for a line of notes every day for OVER SIX YEARS.
- * An address book database and filing system which will hold up to 512 names, addresses and telephone numbers.
- * FAST database to locate information VERY rapidly.
- * This NEW version now includes a PRINTOUT option to give a hard copy on a wide variety of printers.
- * Also gives a display of the BIORHYTHMS for 4 people of your choice. This is an invaluable guide to those likely "GOOD" or "BAD" days which we all have.
- * Contains a special section on Biorhythms and their uses.
- * Multi disc file handling allowing ANY NUMBER of databases to be set up and records to be archived.
- * Menu driven and VERY EASY to use.
- * FULL Instruction Manual supplied.

A superbly useful and versatile filing system for your Spectrum +3.

Supplied on +3 Disc at:- £12.95 (inc. P+P).

"PLUS 3 MULTIPACKS"

Due to popular demand from our customers, we have decided to offer a selection of "Multipacks" of our +3 utilities for those who wish to purchase more than one utility at a time. These offer a reduction in price since the programs will be supplied on ONE DISC for 2 programs and so on. At these prices the Multipacks offer a good saving and are excellent value for money. PLEASE NOTE:- You can, of course, still buy the programs individually if you wish. The various packs available are:-

Pack	Details	Price
----	-----	-----
MP1	SP7 and DICE on 1 disc.	£27.95
MP2	SP7 and DMS on 1 disc.	£27.95
MP3	SP7 and DIARY on 1 disc.	£25.95
MP4	SP7 and DB2 on 1 disc.	£27.95
MP5	DICE and DMS on 1 disc.	£27.95
MP6	DICE and DIARY on 1 disc.	£25.95
MP7	DICE and DB2 on 1 disc.	£27.95

"DMS +3 DISC MANAGEMENT SYSTEM"

NEW 1.1 Version with superb extra Features!

Now you can keep your disc files and programs organised and in good order with this new and versatile program, with a minimum of time and effort. No more searching discs for a particular file, no more doubt as to which files are on which disc - DMS does all the work for you. It now has the additional features of an improved database printout; new high capacity formats; and an extended directory option. The new full list of features are:-

- * Menu systems that you can include on your own discs to make program selection easy together with a DOS utility which provides all the standard DOS commands i.e. DIR; FORMAT; COPY; ERASE; RENAME; ATTR; and HEADER.
- * An Index utility which allows you to keep a record on disc and now features an improved database printout.
- * Automatic update of standard discs with a manual facility for non standard discs.
- * Now features new high capacity formats, allowing much more data to be stored on each disc e.g. 178K, 193K and 203K format options are now available, together with an option for extended directories - very useful when a disc contains a large number of small files.
- * A Set Up facility allows you to select the colour scheme for the program according to your own tastes.
- * Large database means up to 2000 disc sides can be handled easily and quickly; a VERY FAST alpha search enables any file to be found in seconds.

Get your disc files and programs in order now with this new and superbly versatile program.

Supplied on +3 Disc at:- £14.95 (inc. P+P).

"GH1 GAME HACKER UTILITY"

This is our latest utility for the Spectrum Plus 3 and enables anyone to break into ANY game for the purpose of changing names, finding and then getting infinite lives, selecting a certain level at which to start, adding extra features and much much more.

- * GH1 is very user friendly, being Menu driven.
- * FULL instructions are including in a quite large Manual, which contains many examples of breaking into some of the most complex games and of then being able to isolate the code.
- * GH1 comes complete with a suite of five programs and includes a FREE disassembler to help to make the process even easier.
- * Comes supplied on disc for the +3, or on tape to run on the other Spectrum computers.
- * Gives examples of the tricks the professionals use to protect their programs, and how to crack them.
- * Also contains a FULL Technical Section to help you further understand the methods used.
- * With GH1 you have the tools to break into ANY program, and change it how you wish.
- * Have hours of fun and amaze your friends.

Available for ALL Spectrum Computers.

Superb Value at:- £14.95 (Add £1 for P&P).

SAM COUPE UTILITIES

We now have the following utilities for the Sam Coupe:-

"CT2 TAPE BACKUP UTILITY"

This is an advanced tape copier for the Coupe which will backup most Spectrum and your Sam tapes to give those essential backup copies you need. It handles normal speed Sam tapes and normal speed, Pulsed, Countdown and Multi small block Spectrum tapes. Makes a RELIABLY LOADING backup of the above Spectrum tapes to reload EASILY into your Sam. Ideal for owners of a Sam without a disc drive.

Price:- £9.95 on Tape.

"CD2 TAPE TO SAM DISC UTILITY"

This program will transfer Spectrum tapes to the Sam disc drive EASILY and QUICKLY. It also gives superbly enhanced compatability of Spectrum programs loading on the Sam, because it effectively changes the Sam into a Spectrum! This means you can load THE VAST MAJORITY of your Spectrum programs on the Sam, then transfer them easily to the Sam disc drive for speed of reloading. All types of Spectrum tapes can now be transferred to your Sam disc drive e.g. Fast Loaders, Pulsed, Countdown, Multi Block and most of the VERY LATEST programs. EASY to use, CD2 comes complete with a FULL Manual of instructions.

NOTE:- CD2 HAS BEEN ENDORSED AS A SAM UTILITY BY M.G.T THEMSELVES - THE PEOPLE WHO GAVE YOU THE SAM.

We think you will agree this is the best recommendation of all! We also think you will agree that CD2 is probably the best utility of its type for your Sam.

Price:- £10.95 on Disc.

"SAM D.I.C.E DISC UTILITY"**NEW 1.1 Version - now compatible with Masterdos!**

This is our latest utility for the Sam Coupe - a superb Disc Information Copier and Editor disc utility with a similar (if not better) specification to our DICE utility for the +3 - see Page 15 - which itself originally received superb reviews in the computer press. It features:-

- * READ disc sectors, data displayed in Hex and ASCII. Also MODIFY disc sectors - input numeric, Decimal or Hex.
- * SUPPORTS most 3.5" double density disc formats with an ANALYSER to examine and edit non-standard sectors.
- * BACKUP disc files - ALL or SELECTED files with only around FIVE disc swaps for a FULL disc (single drive).
- * FULL directory listing including HIDDEN and ERASED files with one key press to RECOVER, if possible, erased files.
- * RECOVER lost data from part files or discs with damaged directories plus ERASE single or multiple files.
- * RENAME files; SET/CANCEL file attributes; MOVE files within the directory; READ file headers.
- * FORMAT whole disc or SINGLE tracks and CHECK disc with option to lock out defective sectors.
- * FAST disc SEARCH for a string of up to 10 bytes length.
- * GRAPHIC and NUMERIC display of file location and disc space used and overall disc space used.
- * Now compatible with the new Masterdos system.

Sam DICE is VERY easy to use, with single key selections from several different Menus. If you own a Sam this is one utility you cannot do without! Suitable for ANY Sam.

Superb Value at:- £14.95 on 3.5" disc.
